## about the artist

Hassan's experiential and abstract way of drawing allows him to express his inner voice. His creations of Shenton way, waterfall, and HDB theme are indication of his memories. At 51, he has sold more than 50 pieces of his artworks since he started 3 years ago, mainly using oil paints. His preference of palette knife over brushes allows him to stretch his potential and talents. He felt that painting is soothing, relaxing and most importantly, it allows him to calm his mind.
