

# GRAFFITIXPRESSIONARTIST

## Muhd Raiz Bin Abdul Razak aka Aiz

Aiz first got interested in graffiti way before he took art as a subject in school. Graffiti has opened up a whole new world for him as he has learnt different techniques and mediums to apply to his works. He has also met with graffiti artists from Malaysia, Brunei, Canada and even Sweden and have gained valuable experiences from his counterparts. He wishes to spread his art to others so they can enjoy what he envisions in his mind.

## Benson Lee

Benson graduated from Temasek Polytechnic, School of Design with a Diploma in Product & Industrial Design in 2008. He started doing graffiti in 2007 with the tag name, Blynk, and has maintained a strong interest in the “unfamiliar” art scene in Singapore. His future plans include painting all over the world with foreign artists and exploring the chances of combining Product Design and Graffiti Art.
